Product Description

What is eeZeeBAR™?

eeZeeBAR™ is a compressed Ready-to-Use Supplementary Food (RUSF) for the management of moderate acute malnutrition (MAM) in children older than 6 months of age.

Two bars of eeZeeBAR™ (111.2 g) provides the equivalent to one 92 g sachet of lipid-based RUSF in terms of energy (500 kcal), protein and micronutrients.

eeZeeBAR™ is designed for use in community-based management of MAM.

eeZeeBAR™ has a shelf-life of minimum 4 years unconditionally.

How to eat

eeZeeBAR™ can be eaten as a biscuit direct from the packet, or as a porridge for the youngest children.

To make a porridge, crumble eeZeeBAR™ into a clean bowl and add boiled drinking water. Use 100 ml of water per bar.

Consumption of eeZeeBAR™ should be accompanied by breast milk or clean drinking water.

For young children, continued breastfeeding is recommended until 24 months of age and beyond (exclusive breastfeeding until 6 months of age). Children under 6 months of age should not be given eeZeeBAR™.

Hand washing with water and soap (mother and child) before consumption is recommended.

Recommendations for use

eeZeeBAR™ is intended for the management of moderately malnourished children in the community.

The intended daily serve is 2 bars/ child/ day.
